

Declaration of Product Shelf Life

Dear Customer:

Southchip Semiconductor Technology(Shanghai) Co., Ltd. adheres to integrity, quality and look forward to becoming your trusted partner. We hereby declare that products we produce and sell have a standard shelf life of two years from the date packaged in moisture barrier bags. This assumes the integrity of moisture barrier bag seal has not been compromised and the humidity indicator card has not discolored during the time period.

Please refer to the label for the packaging date.

If you have any questions for this declaration, please contact your Sales Representative freely.

Remarks:

The packaging date is represented by D/C, therefore, the shelf life is calculated by D/C plus two years.

As indicated in the following label, the D/C with a figure of 2106 represents the packaging date is the first day of sixth week in 2021, and the shelf life will expire on the first day of sixth week in 2023.

Southchip Semiconductor Technology(Shanghai) Co., Ltd.
